May 2027

Master of Business Administration (MBA)

- Haas: Tech Club, PM Club (Product Con, Sponsorships), Women in Leadership (President), Soccer Club (Head of Marketing)

Babson College, Wellesley, MA

May 2021

Bachelor of Science, Business Administration

- Graduated Cum Laude, Global Business Management and Marketing Concentrations

EXPERIENCE

ServiceNow

May 2026 – Aug 2026

Senior Product & Solution Marketing Manager, MBA Intern – AI & App Development, San Francisco, CA

- Defined product-led growth strategy for ServiceNow's agentic developer portfolio from 5 workstreams, 22 stakeholder interviews, and a 17-company benchmark; adopted by the SVP of Product & Solution Marketing to build executive PLG support.
- Diagnosed 9 activation blockers across an 8-stage developer funnel, ranked by severity and owner (#1: developer-instance access, cited by 7 of 14 stakeholders and corroborated by community data), shifting the strategy from self-serve PLG to product-led sales.
- Built 'Build Agent's' competitive positioning against Microsoft, Salesforce Agentforce, and pure-play AI coding tools from 8 AE/SE field interviews; published 3 seller battlecards to SalesCoach for live customer conversations.
- Designed and shipped 'TalkThrough,' an asynchronous voice-first interview platform that removed scheduling as a research bottleneck, achieving 73% completion (16 of 22 sellers) and approval for internal AI Demo Day.
- Created and ran a 6-session company-wide Spotlight Series with 9 manager-speakers across 5 business units, reaching 23+ MBA interns; productized it into a reusable template and hub for future cohorts.

RevReply – AI-driven outbound sales acceleration platform

Jan 2026 – May 2026

Product Manager Intern (In-Semester), San Francisco, CA

- Built and shipped a full-stack AI product intelligence platform (Supabase, Lovable, Jira, Firecrawl, Claude, GPT) that clusters 63 signals into 40 ranked issues and surfaced \$600K ARR at risk across 13 enterprise accounts.
- Grounded the platform's AI layer in measurable inputs by computing 6 risk and 4 competitive indicators deterministically before reasoning, keeping every recommendation inspectable and auditable.

IBM

2020 – 2025

Account Executive (Storage Specialist) – Public Sector SLED, Austin, TX | Business Partner Specialist, Dallas, TX

Account Executive (Brand Specialist) – Summit Program, Remote | Account Executive (Brand Specialist) – Co-op, Boston, MA

- Served as sole IBM branded storage expert across Texas and half of California (5,500 accounts); authored the SLED Client Expansion GTM strategy presented to the CEO and executive team and distributed across all IBM SLED teams.
- Led product launch of IBM's Defender security platform by developing competitive analysis, ROI tools, and product sales & usage guides, generating \$750K in new revenue and 95% satisfaction from post-launch surveys within 3 months.
- Created 9-month GTM roadmap and SLED Expansion playbook for IBM's FlashSystem & Defender portfolios by analyzing regional sales data & identifying top partner distribution channels, driving multi-million-dollar growth across 10+ states.
- Developed competitive and ROI positioning framework for IBM's FlashSystems products by synthesizing technical validation, financial modeling, and UX storytelling, leading to \$1.8M in new IBM wins and 35% cost savings for clients.
- Redesigned and expanded California market strategy through customer segmentation and opportunity validation, ultimately mapping product pathways that uncovered 12 new agencies and \$4M+ qualified pipeline in six months.
- Built partner account mapping and cross-sell framework by integrating Salesforce opportunity data with 4,000+ partner records to reveal coverage gaps and overlapping targets, generating \$2.7M pipeline and improving partner visibility.
- Sourced & integrated Salesforce, certification, and engagement data into a weighted model that scored partners across revenue impact, expertise, and alignment, enabling tiering that improved productivity 25% & guided resource planning.
- Built a feedback loop that captured 40+ partner and customer FlashSystem usability reports; translated recurring themes into engineering priorities that shortened response time 30% and shaped two roadmap enhancements.
- Built a partner program for HW & SW products by interviewing engineers and users to define enablement requirements, design training content, and track adoption, reducing onboarding from 6 to 2 weeks and influencing \$5M+ in pipeline.
- Created a scalable event sponsorship ROI model by mapping lead conversion and co-funding data across conferences and standardizing KPIs to measure event effectiveness, leading to 2.5X ROI on average and earning full budget renewal.
- Directed cross-functional collaboration with 3 reseller partners to design and execute co-marketing campaigns, aligning teams on shared messaging, assets, and KPIs that drove 175 leads, \$900K pipeline, and 40% greater partner funding.
- Led a team of 8 engineers and marketers to deliver a Cloud Storage Education Series for IBM partners; leveraged feedback to refine curriculum flow and technical depth, achieving 100% QoQ growth and 60% certification rates.
